

SPEC SHEET

Dual Head LED Motion Security Light

ST20MH2-xx-xx

- Built-in 180 degree motion sensor detects movement up to 70 feet away
- Manual override of motion sensor to keep it on at night
- Adjustable run time
- Adjustable pivot arms

Description

The Dual head LED security light saves up to 80 -percent on energy costs and comes with a built-in photocell for dusk-to-dawn operation, plus a built-in motion detector. Motion detection can be overridden by flipping switch off, then back on within 3 seconds.

It is a great lighting option for outdoor walkways, garage areas, back door entrances and more. This 2-lamp LED Security Flood Light comes with two built-in, high-power LED arrays that use 10 watts of power per each LED light, yet have a light output comparable to a 120 watt bulb. The design also has a built-in motion detector with a 60-foot maximum range, and a photocell for dusk-to-dawn operation. Pivoting arm on each light allows you to aim light where it's needed. Available with durable bronze or white finish aluminum housing.

Specifics

Wattage:	20w
Voltage:	120-277v AC
Color Temp.:	5000k Cool White 3000k Warm White
Brightness:	1640 Lumen
