

LED SABER TUBE LIGHTS 12V DC

SPECIFICATION SHEET

ELL-757-xx

Applications:

Exhibit & Display Lighting

Features:

- Energy Efficient LED Saber Light
- Easy Installation with Included Mounting Clips
- High Lumen Output LED Chips

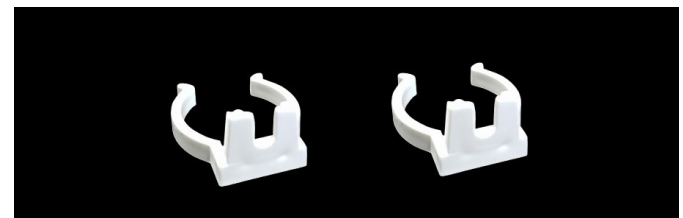

Description:

Introducing our new 12V LED Saber Tube Light. It is one of our most energy efficient and cost effective lighting solution for the exhibit, display, and decorative linear lighting applications. The new ELL series light bars use low energy and virtually no heat in comparison to halogen light fixtures. The LED Saber Tube Lights 12V are engineered for fast and easy installation and it can be easily mounted with two included mounting clips.

The LED Saber Tube Lights requires 12V DC LED Power Supply. Sold separately, visit step1dezigns.com for more details.

Specification:

Wattage:	24 Watt - ELL-757-48 32 Watt - ELL-757-64 36 Watt - ELL-757-70
Voltage:	12v DC
Color Temp:	6000k Day Light
Brightness:	2400 Lumen - ELL-757-48 3200 Lumen - ELL-757-64 3600 Lumen - ELL-757-70
CRI:	80+
Beam Angle:	360°
Lifespan:	± 30,000 - 50,000 hours
Environment:	Suitable for Indoor Dry Location

Mounting Clips Included
