Description:

Introducing our new Elumalight LED 8 Watt CCT Adjustable Gimbal Light. It is perfect for lighting small spaces or recessed. This LED Gimbal has 3 different color temperature settings such as 3000k Warm White, 4000k Natural White, and 5000k Cool White. The direction of the light is adjustable with 30° tilt and 360° rotation. It is a great fit for many applications with virtually no heat, or ultraviolet radiation. It is a great light source to illuminate display cases, kitchen under-cabinet, and recessed applications. With ±30,000-50,000 hours of lifetime, you can enjoy your LED lights for many years to come. Available with LED power supply is included.
