Bulb SKU: [EL-MR16-LED-4W](#)
Remote SKU: [EL-RMT-MR16-LED-4W](#)

Sold Separately

Applications:

Residential, Commercial, Retail Store, Displays, Tradeshow Booth

Description:

Introducing our new LED RGBW MR16 spotlight bulb with a multi-colored dynamic light source. It can be controlled with a remote, fully dimmable and capable of 16 million color combinations. This RGBW LED MR16 uses a maximum of 4 watts of power to create a custom lighting environment.

The remote control has dynamic lighting modes settings such as color cycle, fade, and many more. The LED RGBW MR16 bulb features "last setting memory" which means it will return to the last setting command it was given in case of power outage. The required 4-Zone RF Remote Controller can control up to 100 LED RGBW MR-16 Bulbs and it is sold separately, select remote or see related products at [step1dezigns.com](#) to purchase.
