

SPEC SHEET

60 Watt Electronic Transformer

S90031/6L

- Energy Efficient
- Durable Aluminum Case
- Easy Hardwire Installation

Description

The 60 Watt class II 12 Volt AC Electronic Transformer features electronic internal resettable protection. The auto heat regulation also acts as overload protection. Auto-reset thermal cut-off at about 125°C. Aluminum style casing. Maximum load: 60 watts. UL and cUL listed. Lead wire is about 6" long.

Specifics

Input :	120v
Output:	12VAC/60 Watts
Wattage:	2w-60w
Max Load:	60w
Voltage:	12V, 24V, or 277V
Dimmable:	Yes
Size:	2" L x 1" W x 0.75" H
Power Method:	Hardwire
Environment:	Suitable for Indoor Dry Location
Case Style:	Aluminum
