

SPEC SHEET

LED Aluminum Mounting Channel - 4' or 8'

STVOFLCH-1

- Flush, Sleek, and Modern Style
- Lightweight and Sturdy Anodized Aluminum
- Cuttable Mounting Channels

Description

The LED Tape Light Mounting Channel can be custom cut, as well as mounted end to end to any total length available. The lightweight and sturdy aluminum mounting channel is available in 4ft or 8ft sections. It can help to create a flush, sleek, and modern style for completely customized LED tape lighting applications. The unique mounting channel track design can be installed easily. Small adjustments to the aluminum channel position can be made after installation. Channel lens is easy to install: simple clip the round surface lens over the mounting channel. The flat surface lens clip into the mounting channel. In-house and field-cuttable mounting channels to work with individual specifications
