

SPEC SHEET

LED Step Light Module

- Available in 120V Dimmable, 120-277V Non-Dimmable, or Low Voltage 12V Non-Dimmable
- No Rough In Box Required
- LED Step Light Module will Fit into Any 2"x4" J-Box
- Integrated, Embedded Driver
- Suitable for Outdoor Installations

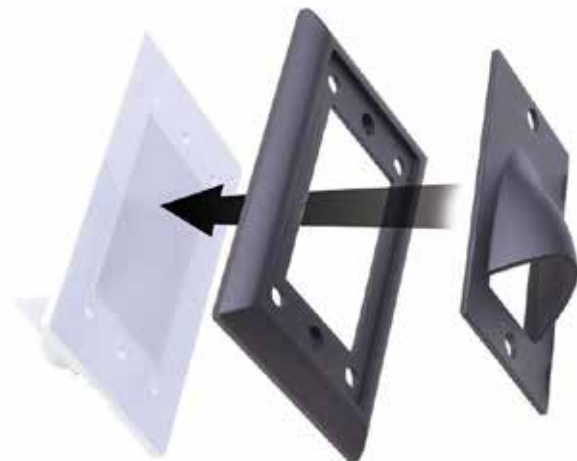

ST-QLED-WW

Description

The LED Step Light is a recessed LED light fixture that is an excellent retrofit for indoor and outdoor staircase, stairway, and pathway lighting. Its small size makes it versatile enough for infinite applications. Each step light is selected with your choice of faceplate (**sold separately**) with a style of finish to complement the light. With both horizontal or vertically oriented faceplate, it can be used for exterior and interior wall, drywall construction, concrete, and brick/mortar applications.

Specifics

Power:	1.5W
