### Description

Plug-and-Play LED Puck Light from Step1 Dezigns is an easy-to-use and affordable solution for brightening up functional work areas, retail displays, kitchen counters, closets or tight spaces.

These plug-and-play Round LED Puck Light make it easy for anyone to quickly install quality LED lighting in their home or business, without hiring a professional electrician. The LED Round Puck Light is dimmable with dimmable driver (sold separately).

A unique feature of these LED puck light is the high Color Rendering Index (CRI) of 80+. CRI is the measurement of how faithfully a light source reveals the colors of objects, ensuring truer colors and minimizing color distortion.
