

SPEC SHEET

LED Aluminum Mounting Channel - 8'

STVOFLCH-02

- Anodized Aluminum extrusions for custom fixtures
- In-house and field-cuttable mounting channels to work with individual specifications
- Anodized Aluminum Finish

Description

LED Tape Light Aluminum Mounting Channels protect and provide better light diffusion for indoor LED tape light applications. The channels provide a rigid, dust-proof housing that can be mounted on almost any flat surface. The LED Tape Light Mounting Channel can be custom cut, as well as mounted end to end to any total length available. The lightweight and sturdy aluminum mounting channel is available in 8ft sections. It can help create a flush, sleek, and modern style for completely customized LED tape lighting applications. The unique mounting channel track design can be installed easily. Small adjustments to the aluminum channel position can be made after installation.
